**CALLING  
911!**

Come join us and learn ways that our communities can use 911 as a resource. She will be speaking on tips when calling 911, what to expect, or simply to answer your questions.

“When people call 911 it is often a crisis or an emergency not usually the best time to answer questions the caller may have. This is an opportunity to get answer to any non-emergency questions or field concerns about calling 911.

She will also have some updated handouts and fun new swag to give out! It may be helpful for callers to know what to expect when calling and have an opportunity to know about the changes that have happened with 911 (new software, Text to 911).
